

## Thet Myo Naing

**Phone:** +95-9977275293(WhatsApp), +84-0812273155  
**Date of Birth:** 09-06-1991  
**Marital Status:** Married  
**LinkedIn:** [Thet Myo Naing | LinkedIn](#)  
**Email:** [thetmyonaing1991@gmail.com](mailto:thetmyonaing1991@gmail.com)  
**Address:** Cau Giay District, Hanoi, Vietnam

Highly motivated and passionate software engineer with over **9 years of experience** in both **full-stack** and **backend development**. Skilled in designing, developing, testing, and deploying **web applications** and **RESTful APIs** using **Agile methodologies**. Proven ability to collaborate with **cross-functional teams** and consistently deliver **high-quality code on time**.

Eager to contribute to organizations that offer a **competitive and challenging environment**, along with opportunities to **grow technically and professionally**. Seeking to apply my **extensive experience and technical expertise** to impactful and innovative projects, especially those involving the **latest technologies** and industry best practices.

### WORKING HISTORY

#### Myanmar High Society

February 2014 - May 2014

##### On Job Training

- ♦ Developed an E-Commerce as an OJT project using [ASP.NET](#) MVC 5, C#, JavaScript, jQuery, Ajax, HTML 5, CSS, and Bootstrap about 3 months.
- ♦ Learn about how to career as IT professional life.
- ♦ Collaborated with an OJT team member to design and develop the project.

#### Myanmar High Society

June 2014 - August 2016

##### Web Developer

- ♦ Developed web applications such as Job Portal, E-commerce, Petrol Management System, HR Management System, and Learning Management System using ASP.NET MVC, C#, and SQL Server.
- ♦ Implemented authentication and authorization using ASP.NET Identity.
- ♦ Designed user interfaces with HTML, CSS, and JavaScript.
- ♦ Optimized application performance by leveraging Entity Framework.
- ♦ Contributed to building a mobile-responsive e-commerce website using ASP.NET MVC and C#.
- ♦ Maintained and enhanced existing web applications using ASP.NET, MVC, and Entity Framework.
- ♦ Troubleshoot and resolved technical issues in existing systems.
- ♦ Collaborated with cross-functional development teams to design and implement new features.

#### KBZ Bank

October 2016 – April 2022

##### Senior Full Stack Software Engineer

- ♦ Built and maintained complex web applications such as card management, billing aggregator, and HR management systems using .NET Frameworks (ASP.NET, MVC), .Net, React.js, Nodejs, Oracle Database, PostgreSQL and GraphQL using Hasura.
- ♦ Developed and integrated key financial services including core banking, digital onboarding, tax payment, and bank-to-bank transfers using RESTful APIs.
- ♦ Designed and developed API proxies for banking APIs and implemented custom logic using JavaScript. Configured API management tools such as reverse proxy, security policies, shared flows, API proxies, target servers, and Key Value Maps (KVM), while monitoring traffic on the Apigee Edge platform.
- ♦ Participated in Agile development practices, including daily stand-ups, sprint planning, and retrospectives.

- ♦ Implemented version control using Git from Subversion, and managed code repositories.
- ♦ Contributed to the creation of technical documentation and training materials for both new and existing applications.
- ♦ Collaborated with cross-functional, multicultural teams to ensure quality assurance and adherence to project timelines.

### D3-SG Pte. Ltd. (Singapore Company)

May 2022 – Aug 2024

#### Senior Software Developer (Remote)

- ♦ Designed and developed RESTful APIs and web applications using React.js, .NET Core, and C#.
- ♦ Design and implement database schema using entity framework core and Microsoft SQL Server.
- ♦ Integrated third-party APIs and web services via RESTful APIs to extend application functionality.
- ♦ Developed secure authentication and authorization mechanisms using OAuth and JWT tokens.
- ♦ Participated in Agile development methodologies, including sprint planning and accurate estimation of user stories.
- ♦ Troubleshoot and resolved application bugs, defects, and performance issues across the tech stack.
- ♦ Collaborated closely with the frontend team to ensure smooth and consistent integration between backend and frontend components.

### FPT Software (Vietnam Company)

Sep 2024 – Present

#### Senior Software Developer

- ♦ Designed and developed RESTful APIs and web applications using React.js, .NET Core, and C#.
- ♦ Implemented and utilized Docker to enhance application performance, deployment, and scalability.
- ♦ Designed and implemented database schemas using Entity Framework Core and Microsoft SQL Server, including temporal tables for data versioning and history tracking.
- ♦ Developed secure authentication and authorization mechanisms using OAuth, JWT tokens, and Microsoft login integration.
- ♦ Troubleshoot and resolved application bugs, defects, and performance issues to maintain system stability and efficiency.

## EDUCATION

### University Of Computer Studies, Taungngu

September 2011

#### Bachelor of Computer Science

Graduated Bachelor of Computer Science (B.C.Sc., B.C.Sc. (Hons:)) from University of Computer Studies, Taungngu (UCST), Myanmar in September 2011.

## CERTIFICATIONS

### Microsoft Certified: Power Platform Fundamentals

November 2024

### Microsoft Power Platform Functional Consultant

December 2024

## TECHNICAL SKILLS

- ♦ Programming Language: C#
- ♦ Front-End: HTML, CSS, Bootstrap, JavaScript, jQuery, Ajax, React.js, Angular
- ♦ Web Services Technology: WCF, Restful API
- ♦ Database: Microsoft SQL Server, MySQL, Oracle, PostgreSQL
- ♦ Hosting Server: Windows Server
- ♦ Source Control: Bitbucket, GitHub, Subversion, Azure DevOps

- ♦ OS: Windows
- ♦ API Documentation: Swagger
- ♦ Low Code/No Code Platform: Power Platform
- ♦ API Management Platforms: Apigee Edge
- ♦ Cloud Platforms: AWS Cloud
- ♦ CICD Tools: GitHub workflow and action, Jenkins, GitLab
- ♦ Project Management Tools: Jira

## LANGUAGES

**English (Intermediate)** (Full professional proficiency), **Burmese** (Native)

## INTERPERSONAL SKILLS

- ♦ Able to communicate effectively with various cultural and multi-generation team members, clients and stakeholders and able work collaboratively with others by sharing ideas and working towards a common goal with positive attitude and flexibility.

## STRENGTH

- ♦ adapt to changes and get up to date with the latest technologies quickly.
- ♦ creative and innovative when comes to problem-solving and finding new ways to develop software.
- ♦ find and fix any issues in the code thoroughly and efficiently.
- ♦ manage time effectively and prioritize tasks to meet project deadlines.

## CAREER PATH

I graduated in 2011 and began my IT career as a web developer in 2014. Since then, I've worked with several well-known companies, including Myanmar High Society (one of the most established software houses in Myanmar), KBZ Bank (one of the largest banks in Myanmar), and Tokiomarine Co. Ltd. (a Singapore-based client of D3-SG Pte. Ltd., where I worked remotely). Currently, I am working on-site at FPT Software, one of the leading outsourcing companies in Vietnam.

I'm looking to grow further in my professional career and explore new job opportunities that offer fresh challenges and responsibilities in a dynamic work environment. I'm also interested in transitioning into the Low Code/No Code space, particularly with platforms like Microsoft Power Platform, if the opportunity arises.
